VALUE

# Play like an architect

## Infinite constructions

Incastro is a **new educational toy** based on a **single module**,

which allows you to **build in all directions**.

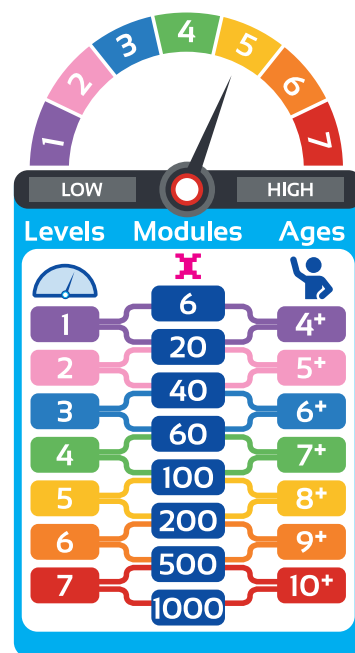

Thanks to a serial shape it is possible to create **flat, three-dimensional, curved** or **mobile** structures **without special pieces**.

Incastro is a toy **for all ages**.

Its shape allows you to create both **simple and complex compositions** based on your skills.

You can choose between **different levels** of learning and the most suitable difficulty.

Incastro increases children's **creativity** and develops their **concentration** and **self-esteem** as they progress through the game and achieve results.

# Endless ways to play

## For all ages

Incastro allows you to fully express your **imagination** through **endless combinations**.

You can make useful **desk objects** such as photo frames, pen holder, but also **durable constructions** such as swords, pistols, rackets or wearable **items** such as bracelets, crowns, helmets. **Complex buildings** such as bridges or castles, **moving structures** such as mills or trains.

- **Unique Modular shape**
- **Heavy-duty buildings**
- **Quality**
- **Multilevel**

# VALUE

## STEAM

Science, Technology, Engineering,  
Art and Mathematics

Incastro is an **educational toy** based on **scientific principles**, which can be tested at **different levels**. Playing games helps children **learn quickly** through **experience** while remaining **stimulating and fun** at the same time.

It also stimulates the acquisition of **fundamental knowledge** that our children will be able to exploit in the future such as: **problem solving** in a creative way, **group work**, **oculo-manual**, **coordination**, **develops spatial**, **mathematical** and **geometric skills**.

# Educational

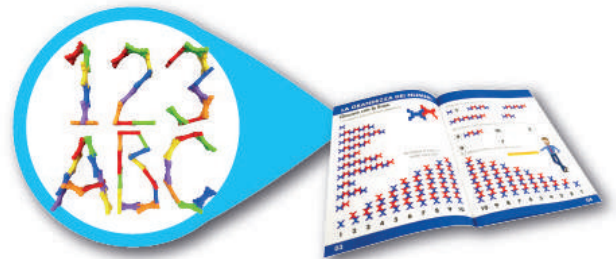

## Learn playing

Incastro is a useful **teaching tool** for all innovating teachers and educators. Incastro is a toy that helps children **develop their skills** both during school hours and at home.

Incastro principle is to propose the game as a useful **learning method** for **children's education** by developing **imagination, social skills, concentration** and **visual perception**.

Incastro offers educational **activities using colors, shapes** and **combinations of bricks**.

- Increase ability to think
- Spatial imagination
- Auto-acquisition
- Perception of colors
- Communication skills
- Construction capacity
- Progressive levels of learning

VALUE

# Quality and certification

## 100% Made in Italy

We work hard to ensure that children can play and enjoy our product in **total safety**.

The materials used are of the **highest quality**, **certified** and **completely safe** for children of all ages.

Made of **100% recyclable, non-toxic plastic material**, it guarantees **durability, resistance, soft to fit, does not stain** and is **washable**.

The product is **self-cleaning**, because it has no hollow parts where dirt could accumulate, **without lead, without sharp or pointed parts**.

Manufactured with the **highest quality standards in Italy**.
